

## Oilfield Trash: Life and Labor in the Oil Patch (Paperback)

---

By Bobby D. Weaver

Texas A & M University Press, United States, 2013. Paperback. Condition: New. Reprint. Language: English. Brand new Book. When the first gusher blew in at Spindletop, near Beaumont, Texas, in 1901, petroleum began to supplant cotton and cattle as the economic engine of the state and region. Very soon, much of the workforce migrated from the cotton field to the oilfield, following the lure of the wealth being created by black gold. The early decades of the twentieth century witnessed the development of an oilfield culture, as these workers defined and solidified their position within the region's social fabric. Over time, the work force grew more professionalized, and technological change attracted a different type of labourer. Bobby D. Weaver grew up and worked in the oil patch. Now, drawing on oral histories supplemented and confirmed by other research, he tells the colourful stories of the workers who actually brought oil wealth to Texas. Drillers, shooters, toolies, pipeliners, teamsters, roustabouts, tank builders, roughnecks . . . each of them played a role in the frenzied, hard-driving lifestyle of the boomtowns that sprouted overnight in association with each major oil discovery. Weaver tracks the differences between company workers and contract workers. He details the work...
